

Help me register

DailyPoker

Version: 1st of September 2009

Help me register.

This document explains how to register and activate your player and your Magic account.

Step 1 – Register your player account.

- A. Go to www.DailyPokerMagic.com/register.php and perform step 1 – 3.
- B. Step 1 - Add noreply@DailyPoker.com to your address book to avoid spam filters.
- C. Step 2 - Your reference code will be automatically filled in if you have used a reference link from an email invitation, website or URL link. Check if the reference code field is correct or insert the reference code you want to use. If you have a referrer (sponsor), ask him/her for advice. The use of a reference code will award extra start-up points for you in the Magic list and ensure that you can work in a network with others
- D. Step 3 – Click on the button “register your player account”. You will be taken to a new site where you fill in your information. **Note!** Leave the field “recommended by” empty (this field is not in use!). In the field “signup code” you can fill in the bonus code “**Daily1000**” which give you 200% extra bonus on your first deposit up to €1.000 (deposit €10 - €500).
- E. Click “next” and confirm that the information you’ve given is correct on the next page by clicking “confirm”. You will now be logged in to the cashier on your player account.

Step 2 – Activate your Magic account.

- A. It can take up to 30 minutes before your Magic account is ready for activation. Once it’s ready you will receive an email from noreply@DailyPoker.com.
- B. Use the link in this email to activate your Magic account. You are asked to perform 3 steps.
 1. Fill in or confirm any reference code of anyone who has referred you.
 2. Choose a new more convenient password for your Magic account.
 3. Choose your reference code (and phone number) for marketing purposes. Activate!
- C. Congratulations! Your player account and your Magic account are set up correctly and you are ready to start exploration of your new accounts.

Notes.

- You can only have one account at DailyPoker.com and one account at DailyPokerMagic.com these accounts will be connected to each other.
- Visit your resource centre at www.DailyPokerMagic.com/resources.php and use the help files and our quiz to learn more about both accounts and other actual things.
- Access our games from DailyPoker.com. You can play poker from our web client here: www.DailyPoker.com/en/Poker/Poker-Web-Client.aspx or download our software here: www.DailyPoker.com/en/Poker/Download-Software.aspx

Need further assistance?

- Contact your sponsor (the one that referred you).
